

Curriculum Vitae

Personal data:

- **Full Name** : Wesam Mohamed Farouk Elsayed
Ahmed Kandil (as in the passport)
- **Place Of Birth** : Traboles,Libya.
- **Address** : Abd Elsalam Aref St.,
El-Manshia-Benha,Kalyobia, Egypt
- **Date Of Birth** : Aug-30-1975
- **Nationality** : Egyptian
- **Gander** : Male
- **Marital Status** : Single
- **Religion** : Moslem
- **Tel.** : (002-013) 3231065, 018-9681027
- **P O Box** : 13511, Egypt,Kalyobia-Benha,El-Manshia,Abd
Elsalam Aref St.,Kadri Elsaied Building, Flat, No.1.
- **E- mail** : wisam_faruk@yahoo.com, another one
wisam.faruk@gmail.com
- **Military Service:** Exempted.

Certificates:

- **B.Sc. Mechanical Engineering And Design (May 1998), Zagazig University, Benha Branch Faculty Of Engineering (Shoubra).**
- **Project Of B.Sc. is (Gravity Die Casting) With Grade “Very Good”.**
- **Diploma In International Welding Engineer (IWE) , (Feb 2008) , (From Austrian International Welding Institute [(IIW),(SZA)] +Egyptian Metallurgical Research & Development Institute (CMRDI)) With Grade “Very Good”.**
- **Master Degree In Technology Of Material And Production Engineering(The Corrosion Behaviour Of Metal Matrix Composites) (Jan 2006), Mounfia University, Shebeen Elkoom Faculty Of Engineering.**

Languages:

1. **Arabic (Mother Tongue).**
2. **English (Very Good In Speaking, Writing And Understanding).**

Additional Skills In Computer:

- **AutoCAD (CAD program)**
- **Solid Edge (CAD Program)**
- **Edge Cam (Cam Program)**
- **Star Mill (Cam Program)**
- **Edge Cam (CAD + CAM Program)**
- **Graphics (PhotoShop6.0, Psp6.0)**
- **Programming Languages (Visual Basic, Pascal, C++)**
- **Microsoft Office (Word, Excel, Access, PowerPoint)**
- **Operating System (Dos, Windows, Linux, Mandrake)**

Practical Experience.

- **Very Good** Experience In Dealing With Milling, Punching ,Turning CNC Machines, Injection And Blowing Plastic CNC Machines.
- **CNC Programming.**
- **Working As"Production Engineer" In "Elwehda"Co. For Plastic Productions From Aug.1998 To Jul. 2000.**
- **Working As"Engineering Drawing Teacher" In (Shebeen Elkoom Faculty Of Engineering),Monufia University From Jul. 2000 To Oct. 2001, also I have a wide experience in research, materials characterizations and processing (HIP), Heat treatment, testing .**
- **Working As "Production Control and Planning Engineer" In planning and production control department- (Kader Factory For Developed Industries {Arab Organization For Industrialization (A.O.I)}) From Oct. 2001 Till Jan 2010.**

My job duties in Kader factory include the following:

- I am working in the field of production responsible for
- 62 workers, managing them to have higher Productivity,depending on manual work & automatic machines sometimes.
- Taking part in various production plans setting up including the required estimated human and mechanical powers available in

addition to planning production rates to control requirements and available powers.

- Setting up detailed production plans for various products including putting necessary alternative (**dissection , merging , pitting off ... etc.**) as well as putting starting and final dates.
- Setting up periodical follow up reports the propose monitoring how for the production processes are progressing in-addition to hammering out for the problems hindering the process carrying out.
- Supervising the planning and production control system using the computer including inputs & outputs in addition to the connection and coordination of all activities associated in the application of the system (**Marketing – Planning – Material control – Stores – Production – Costing .. etc.**).
- Taking part in activities necessary for Kader Factory to the qualification of quality control (**certification ISO 9001 & ISO 9001-2000**) as well as various audits to monitor how applicable the system and maintaining it.
- Participating with the employees in charge, in setting up the designs of new products, conducting the technical researches to develop the current products, performing the works of engineering drawing, croquettes clarifying the designs, and technical researches which are currently prepared.
- Participating with the employees in charge in setting out the engineering specifications for the raw materials, the materials, products and equipment necessary to operations of production, and conducting the different technical measurement operations.

- **Preparing the data necessary to planning, and execution of production operations, including data of productivity, statistical data, drawings, croquettes, engineering drawings, technical specifications, manual of quality, registration methods, disassembly, assembly, operations of technical maintenance of devices, machines, tools and equipment used in work.**
- **Participating with the employees in charge, in executing some production operations, some operations of maintenance, repair and installations of all devices, machines and equipment.**
- **Participating with the employees in charge, in execution of some operations of technical inspection, quality control, and how to use computer engineering programs, computer languages, and use to execute some works.**
- **Making periodical reports, and the reports required by his direct manager on status of works.**
- **Executing the safety and industrial security instructions.**
- **Performing other works entrusted to him in conformity with his work nature.**

Skills And Hobbies :

- **Reading**
- **Internet**
- **Playing Chess**
- **Playing Ping-Pong**

Eng. Wesam Mohamed Farouk Elsayed Ahmed Kandil
